I need you and Mel to start helping him bang out the data elements ASAP.

Having a START manage the data once the process is outlined will be critical.

Who is doing that now? One of the samplers?

Marty,

Would it be helpful to you to have a Data Management expert locally to help pull the plan together prior to data starting to flow? We are going to mobilize Eric Bay at some point in the next few days but can mobilize him as early as the morning if needed.

Let me know,
